STAFF COMMENTS

City staff examined the zoning of Brewpubs in other cities and recommended 4 districts to the Planning Commission at the April 6 meeting. The Planning Commission examined each district and recommended that Light Industry be removed from the list.

The remaining districts include the following:

General Business District – Permitted Outright

Limited Business District – Conditional Use permit

Central Business District – Conditional Use Permit

RECOMMENDATION

A STUDY OF ZONING DISTRICT DESIGNATION FOR BREWPUBS

In 2019, City Council of Willmar adopted an Ordinance Amending Chapter 3, Alcoholic Beverages, Article III, and Sale of Intoxicating Liquor for on-premises Consumption, Division 2, License, Section 3-137, **Brewer Taproom Licenses**, and Adopting a New Section 3-138, **Brew Pub Licenses**. More information on this can be found on the City website, specifically Ordinance NO 1443.

The purpose of this study is to identify Zoning designations for Brewpubs in the City of Willmar. To achieve this, staff examined 10 Cities and their dynamic Zoning districts. Out of these 10 Cities, five of them were cities with 1 to 5000 in population less than the City of Willmar while the other five are Cities with 1 to 5000 in population more than the City of Willmar.

District	Use	Permission	Rationale
General Business	Brewpub	Outright	Should be permitted by right – consistent with other Cities that have been examined. However, a site plan shall be submitted to the City Engineer and Building official for necessary reviews and approvals/permits.
Limited Business	Brewpub	Conditional Use	This district accommodates office and professional service uses separate from the City’s retail and industrial areas and due to its proximity to Residential districts, a Conditional Use permit should be issued with special considerations before granting a Brewpub use in Limited Business District.
Central Business	Brewpub	Conditional Use	City of Willmar Central Business District, especially in the Downtown area accommodates commercial and office spaces. It also contain some few mixed-use development as well as close to the most R-2 (One and Two Family Residential) developments. In this case, a Conditional Use should be required with special considerations.
Light Industry	Brewpub	Conditional Use	Staff recommends a brewpub without outdoor dining or service with a Conditional Use Permit in the Light Industry District. Although, light industry facilities typically produces less air pollution impact, or contaminants, it is still a proactive safety measure to restrict the use without indoor dining.
